K. Information for speakers

- All those who make presentations at the Meeting (including symposium, educational lectures, general presentation, CyPos presentation, etc.) are obliged to disclose conflicts of interest. For details, please refer to G. Report of conflicts of interest.
- Presentation data registration methods differ depending on the program. Please see “1. To speakers of general presentation” or “2. To lecturers (excluding general presentation)” on the next page.
- Please take the seat of the “next speaker” in the session room at least 15 minutes before your session starts.
- Please note that you are not allowed to modify your presentation data in the presentation room.
- Please open the title screen by yourself. Click your title displayed on the monitor to start your presentation. Please operate your slides by yourself by using the keyboard and mouse on the podium.
- Your presentation data is temporarily stored in the PC preview center or the server for pre-registration. We will destroy your data in a responsible manner after the Meeting.

1. To the speakers of general presentations

- 1) Slides of general presentations should be in English at the time of presentation.
- 2) Please pre-register your presentation data (general presentation (oral narration), general presentation (CyPos + oral narration) in advance on the website from March 10 (Tue) 2015 to April 9 (Thu) 2015 (by noon). (The pre-registration period for CyPos data (general presentation (CyPos + oral narration)/educational exhibit/actual equipment exhibit) is between February 5 (Thu) 2015 and noon on March 5 (Thu) 2015.)*
- 3) After you register your presentation data, please check your slides on the online preview screen. You are allowed to modify your data and check it on the preview screen anytime during the registration period.
- 4) If you complete pre-registration and confirmation on the preview screen, you do not have to confirm the data at the PC preview center on the day of the presentation. Please come directly to the session room; there is no need for you to go to the PC preview center.**
- 5) You are not allowed to replace the registered data with new data or modify the registered data after the pre-registration period (including during the Meeting period), in principle.
- 6) We will send detailed information to the email address you registered at the time of registration of your presentation data. The information is also posted on the page for pre-registration of presentation slides on the website of the 74th Annual Meeting of the Japan Radiological Society (<http://www.congre.co.jp/jrs74/>). Please confirm the details on the website.
- 7) Please keep to the time limit of the presentation.
Oral narration Seven-minute presentation and three-minute discussion
CyPos presentation Four-minute presentation and three-minute discussion
- 8) Please be sure to finish your presentation within the allocated time regardless of any trouble with projection.

*The presentation data upload system is available only in Japanese. If you need assistance, the secretariat will upload it on your behalf.

2. To lecturers (excluding general presentation)

- 1) When you use your data during your presentation;

-
- (1) Please confirm your presentation data to be used in your lecture at the PC preview center at least sixty minutes before your lecture. An operator is in the PC preview center to help you as needed. Please let us know if you use videos and sound at the time of data registration.
 - (2) Media that you are allowed to use in your presentation are as follows: Only Windows data is allowed. Please use USB flash memory to store data (the use of CD-R (W) or DVD-R (W) are not allowed). The maximum data capacity should be 512MB.
Note: If you create your lecture data using Macintosh, please use your own PC for your lecture.
 - (3) A Windows PC with MS PowerPoint installed is setup in the room. Your PowerPoint version should be 2003-2013.
 - (4) All PCs to be used for lectures are set to XGA (1,024 × 768). Please check the layout of your data after setting the resolution of your PC to XGA.
 - (5) The file name should be “short title_Speakers name”
(ex.: Cardiac MRI_Masaaki Akahane).
 - (6) If you have reference files such as videos, please store all data in the same folder.
Please use video files that can be played by Codec in Windows7 (OS) and Windows Media Player 11.
(Video files in the form of WMV are recommended.)
 - (7) Since there is the potential for virus infection through various media, please check your data with the latest antivirus software.
 - (8) After creating data to be used in your lecture, please check that your presentation data operates normally using a PC other than that used for the data creation.
 - (9) After previewing, your data will be transferred through LAN to the presentation room.
- 2) To those who will use your own PC;
- (1) When you use your own PC, please confirm that it is capable of external display output at the PC preview center. We have a “D-sub15 pin (mini)” cable available in the presentation room. Some laptop computers need a conversion connector. Please bring a connector if your computer needs it.
 - (2) Please use an AC adapter so that the battery does not fail. Please do not set a password in preparation for a reboot. If the output terminal is not D-sub15 pin (mini), please bring a connection adapter.
 - (3) The screen size (resolution) should be XGA (1,024 × 768).
 - (4) Please confirm that all data is displayed on the screen of your PC without any problems in this environment, in advance.
 - (5) Please cancel the screen saver and power saver settings in advance.
