Invitation

President of the 74th Annual Meeting of the Japan Radiological Society
Chairman and Professor, Department of Radiology, The University of Tokyo

Kuni Ohtomo, M.D., Ph.D.

Dear Colleagues,

The 74th Annual Meeting of the Japan Radiological Society (JRS) will be held on April 16-19, 2015 in Yokohama, Japan in conjunction with the 71st Annual Meeting of Japanese Society of Radiological Technology, the 109th Annual Meeting of Japan Society of Medical Physics, and International Technical Exhibition of Medical Imaging 2015.

As President of the JRS, I am very pleased to extend you a warm invitation to this conference in Japan. The primary objective of the JRS scientific assembly is to promote the highest quality of radiological practice throughout science and education. The theme of the conference in 2015 - "Be Cool and Practical!" - will serve to advance the role of radiology in the next decade.

Yokohama is one of the world's most famous port cities. The conference will take place at the Pacifico Yokohama Convention Center, which is within easy walking distance of hundreds of restaurants and a wide selection of hotels.

The timing of this event is especially fortunate as April is the month when the cherry blossoms (sakura) are in full bloom. We hope that you will take the opportunity to visit other parts of the country during your visit and that you will be exposed traditional culture and modern feeling of Japan.

We look forward to welcoming a large number of participants from all over the world.
